# Veneer Log Production and Receipts in Eastern United States, by State and Species, 1963

By Division of Forest Economics and Marketing Research
Forest Service, U.S. Department of Agriculture
Washington, D.C.

Veneer log production in the Eastern United States during 1963 was estimated at 995 million board feet (International 1/4-inch log rule). This included 972 million board feet of hardwoods and 23 million board feet of softwoods.

Sweetgum, tupelo, and yellow-poplar were the principal veneer log species, accounting for 584 million board feet or 59 percent of the total production. Birch, oak, maple, cottonwood, and black walnut composed an additional 28 percent. Black walnut, probably the most highly prized veneer species today, made up 3.3 percent or about 32,584 thousand board feet of the total cut.

The forests of the South accounted for 74 percent or about 739 million board feet of veneer logs produced in 1963. The South Atlantic and East Gulf areas with 27 percent and 21 percent of the total output were the leading producing regions. North Carolina with 13 percent of the cut was the principal producing State.

Veneer mill receipts of veneer logs in the Eastern States were 1,024 million board feet--29 million board feet or about 3 percent more than reported production. Presumably, the difference was due to imports. The survey did not cover veneer log exports, except for about 733 thousand board feet of logs reported by veneer mills as consigned for export.

The data presented in this report were based on a mail survey of approximately 300 veneer mills located east of the 100th meridian, with a field followup of all nonrespondents. The survey was conducted at the Forest Experiment Stations of the Forest Service, and the summary tables were compiled in the Washington Office.

TABLE 1.--Veneer log production in Eastern United States, by species, 1963

(Thousand board feet, Internatl. 1/4-inch log rule)

| Species | Volume | Percent of total | Species | Volume | Percent of total |
|---|---|---|---|---|---|
| Total, all species | 994,800 | 100.0 | Walnut, black | 32,584 | 3.3 |
| Total, softwoods | 23,037 | 2.3 | Oak, white | 28,117 | 2.8 |
| Southern yellow pine | 14,898 | 1.5 | Magnolia[1] | 28,023 | 2.8 |
| Cypress | 6,437 | .6 | Maple, soft | 16,032 | 1.6 |
| Other softwoods | 1,702 | .2 | Sycamore | 15,658 | 1.6 |
| Total, hardwoods | 971,763 | 97.7 | Elm | 15,248 | 1.5 |
| Sweetgum | 245,106 | 24.6 | Beech | 10,111 | 1.0 |
| Tupelo | 188,795 | 19.0 | Basswood | 9,055 | .9 |
| Yellow-poplar | 150,478 | 15.1 | Ash | 6,703 | .7 |
| Birch | 70,695 | 7.1 | Cherry, black | 6,408 | .6 |
| Oak, red | 60,407 | 6.1 | Hickory | 4,568 | .5 |
| Cottonwood | 37,997 | 3.8 | Hackberry | 3,504 | .4 |
| Maple, hard | 32,792 | 3.3 | Pecan | 2,611 | .3 |
| | | | Other hardwoods | 6,871 | .7 |

[1] Includes bay and cucumber.

TABLE 2.--Veneer log production and receipts in Eastern United States, by State, 1963

(Thousand board feet, Internatl. 1/4-inch log rule)
